What is this Product?

Type

The Fund is a sub-fund of Winton UCITS Funds ICAV, an umbrella open-ended Irish collective asset-management vehicle authorised by the Central Bank of Ireland as a UCITS, and this KID describes the share class above and the Fund.

The Share Class is accumulating, meaning that any income generated by the Fund is reinvested.

The base currency of the Fund is USD and the currency of the Share Class is USD.

For Share Classes denominated in currencies other than USD, the Fund will use financial derivatives to the extent reasonably possible to protect the Share Class against currency fluctuations to the USD. For Share Classes designated as 'Unhedged', the Fund will not attempt to protect the Shares Class against currency fluctuations to the USD.

Investment Objective and Policy

The investment objective of the Fund is to seek to achieve long term investment growth.

To achieve its objective, the Fund invests in a diversified portfolio of financial contracts (derivatives) that provide a return linked to the performance of certain share indices, tradeable debt (bonds), interest rates and currencies. The use of derivatives also allows the Fund to benefit from the decline in the value of such assets (short positions).

The Fund also invests in products known as 'structured financial instruments', a form of investment that provides a return linked to the performance of certain commodity markets.

The Fund's investments are determined according to a systematic trend-following strategy developed by Winton Capital Management Limited following a process that is based on statistical analysis of historical data.

The Fund will maintain a long bias exposure to global equity markets relative to the other asset classes.

The Fund is actively managed which means that the Investment Manager is actively making investment decisions for the Fund.

The Fund is not managed in reference to a benchmark.

No income will be paid on your investment.

You may sell your investment on a daily basis.

Intended investor

The Fund is intended for sophisticated retail and institutional investors

Term

The Fund has no maturity date.

The Fund can be terminated if the net asset value is below USD 20 million or if a change in the economic or political situation would justify such liquidation if necessary in the interests of the shareholders.

Depository: The Bank of New York Mellon SA/NV, Dublin Branch
